

sf::Drawable

sf::Transformable

sf::Text

```
graph BT; Text[sf::Text] --> Drawable[sf::Drawable]; Text --> Transformable[sf::Transformable];
```

The diagram illustrates a class hierarchy. At the bottom is a box labeled 'sf::Text'. Two lines extend upwards from the top of this box, branching out to point at the bottom of two boxes above it. The box on the left is labeled 'sf::Drawable' and the box on the right is labeled 'sf::Transformable'. This indicates that 'sf::Text' inherits from both 'sf::Drawable' and 'sf::Transformable'.
